A Resolution in Support of Recycling Initiatives

Resolution History

The University of Colorado Boulder has a deep and dedicated history of improving its environmental policy. In 1976, the University of Colorado Boulder Recycling Center, now known as the Recycling Operations Center (ROC), was established to increase recycling efforts on campus. Throughout its history, it has seen and implemented a push towards a zero-waste campus. Currently, the University of Colorado Boulder is committed to a zero-waste goal by 2025. However, to achieve bin parity, a goal of consolidating trash bins outside of individual rooms is necessary along with providing up to date information regarding what can and can't be recycled.
